

Applicant Tracking & Recruitment

Gain the advantage to win top talent in today's competitive job market.

Nearly 80% of employers that use an ATS said that recruitment technology makes finding great talent easier than ever.

Reduce the time-to-hire and create a workforce of top talent with a robust, user-friendly Applicant Tracking System.

- Proliant's ATS empowers you to give applicants the experience they deserve with a flexible application builder, modern interface, and texting capabilities.

How can Proliant's ATS help with your recruitment efforts?

Make it easy for candidates to apply and schedule an interview. Applications are mobile-friendly, making it easy for candidates to complete the process wherever they are. They can also select the interview times that work best for them within the application tool.

Expand your applicant pool.

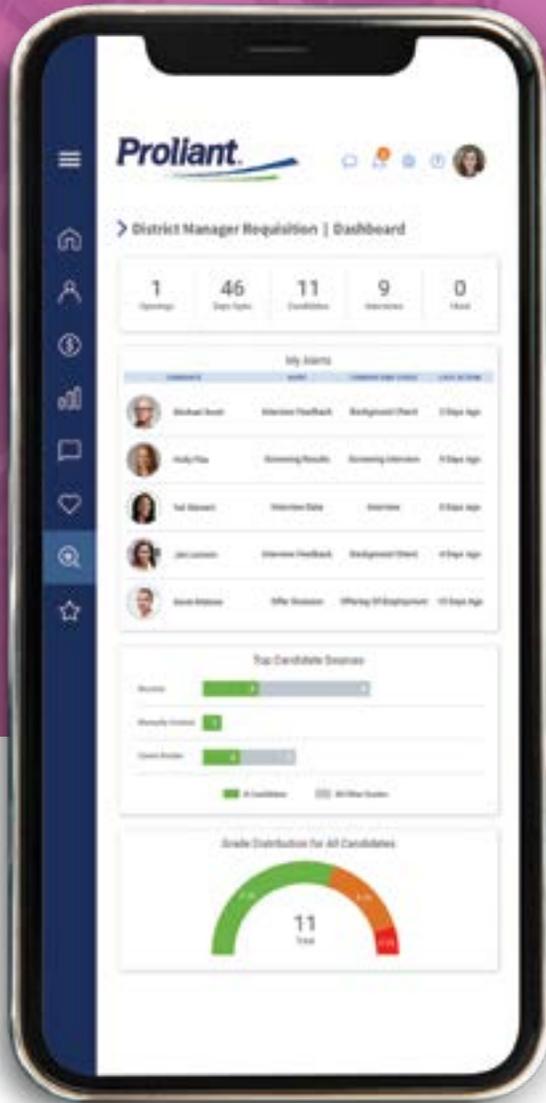

Place job requisitions on your website and leading job boards with one click. You can also analyze which job postings are performing best between different job boards.

Customize applications and monitor applicant progress.

Create job applications easily and efficiently with intuitive drag and drop features. You can also monitor applicants as they move through the screening and eligibility process.

Reach candidates where they are.

Texting & video capabilities allow for a convenient and remote hiring process.
