ProLiant Time

Smarter time tracking. Better visibility. More control.

ProLiant Time gives organizations a flexible way to capture employee time, manage schedules, monitor attendance and move accurate labor data into payroll and accounting.

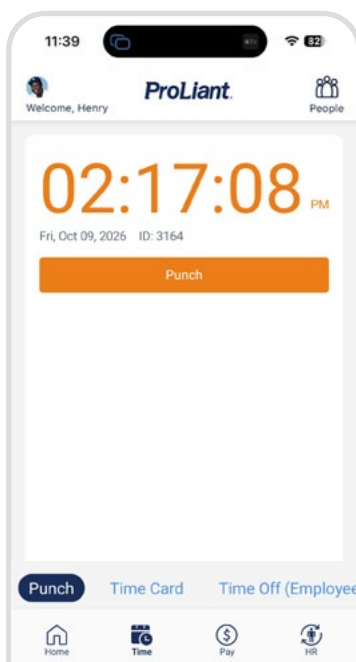

How ProLiant Time Can Help Your Business

Optional Time Clocks

Let employees punch in and out using their preferred method or what works best for your workplace - web, mobile, kiosk or physical.

Flexible Scheduling

Build and manage schedules that accommodate to changing workforce needs while giving managers greater visibility into staffing.

Turn Time Data Into Action

Exception Tracking: Quickly identify tardies, absences and other time exceptions so managers can address issues before they impact payroll.

Geo-Fencing & Tracking: Help ensure employees are punching in from approved locations while providing greater visibility into where time is being recorded.

Multi-Level Timecard Approval: Create an approval process that matches your organization, giving managers and leadership the right level of oversight before time reaches payroll.

Labor Allocations to the General Ledger: Capture where employees spend their time and flow labor allocations directly into the general ledger for more accurate financial reporting.
